Danish

German

Profile

I am a highly motivated software engineering student with work experience in the field. Thanks to developing products for various companies, I am used to acquiring new skills in short periods of time. I appreciate friendly work environments, where we can help each other by pointing out flaws of applied solutions and system designs. I believe that every product should be reliable and extensible. I am looking for a position that will let me continue working on serious products with other professionals.

Education

2018 – now
ICT Software Engineering, VIA Horsens

2013 - 2016
Extended Physics and Mathematics Highschool of Jan Sniadecki Kielce

Work experience

CERN 08/2020 – 09/2021

DevOps, System Design

- Building CBNG version 4 - custom Gradle based build tool
- Developing Spring based REST services
- Controls Artifact Service UI with Angular

Holme Gruppen ASP 04/2019 - 08/2020

Web Developer, System Design

- Creating automated systems (providing loans, verifying status in RKI) in cooperation with Basisbank and ExpressBank
- Developing online shops like, Fashiongirl.dk and Lookperfect.dk

Hobbies

- Music (playing ukulele and guitar)
- Motorcycles
- Travelling
- Philosophy
- Games
